

## SSTAK - Single Site Interconnect

SSTAK is an SSIU and 2U PCM switch combination making a cost-effective solution for telephone and data connection on single site systems.

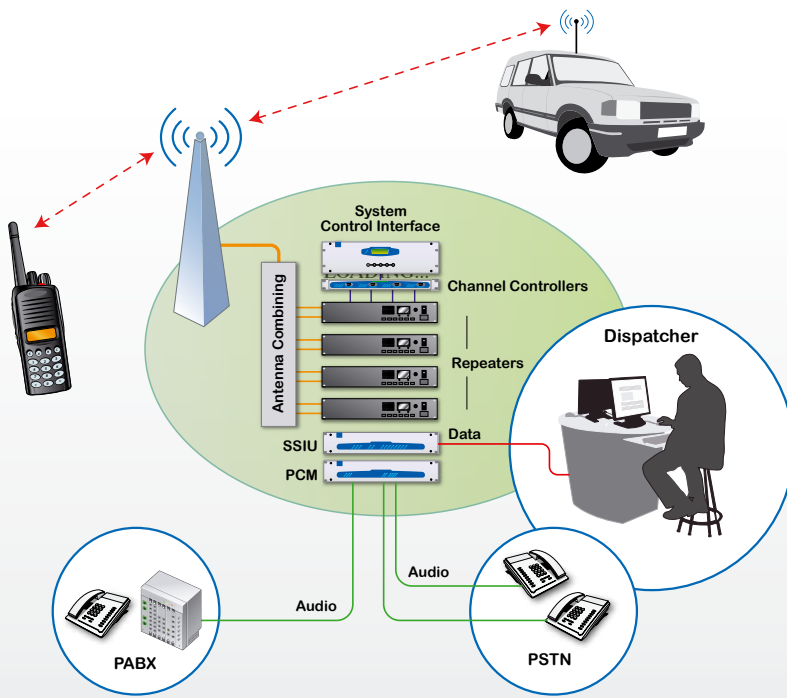

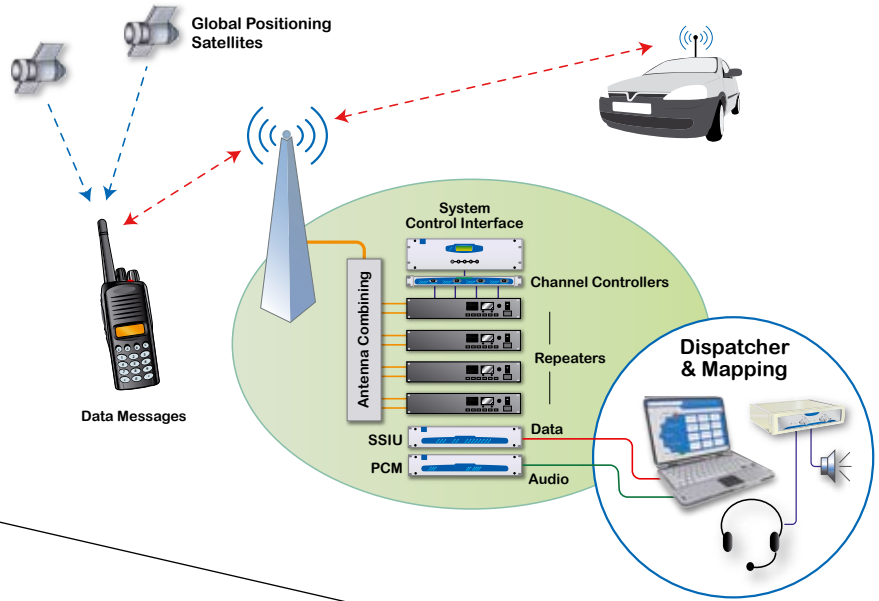

The SSTAK allows for connection of a site to the PSTN or PABX networks. The SSTAK combination also enables expansion to connect Message Handling Dispatcher (MHD), Vehicle & personnel tracking (AVL) as well as the system control terminal (SYSCON).

PCM 2u rack chassis
