

GP140 - The Popular Radio (MDC)

The Popular Radio is the two-way radio solution for professionals who need to stay in contact.
 The GP140 is simple to operate which allows users to keep in contact while still concentrating on the job in hand.

Hardware Features:

- 16 position rotary with stop
- 3 side buttons
- Emergency button, top

Operator friendly controls and features include:

- MDC1200 Signalling
- Programmable Channel Spacing (12.5 / 25 kHz)
- Voice Operated Transmit (VOX)
- Adjustable Power Levels
- Option Board Expandability
- X-Pand™ Voice Compression
- Low Level Expansion
- Channel Scan
- Emergency Signalling
- Caller Tone Tagging
- Escalert Call Features
- Repeater / Talkaround

All GP140 Packages include Portable Radio, Belt Clip, and User Guide

The following frequencies are potentially self-quieting and should be avoided:

VHF: 151.200, 168.000 MHz

UHF: 403.200, 420.000, 436.800 and 453.600 MHz

Please select antenna and battery from options list below

Notes:

IMPRES Batteries are most efficient with **IMPRES Chargers**

Please refer to the Accessory Pages for Motorola's complete range of **IMPRES ENERGY SOLUTIONS**

IMPRES Batteries require Standard Carry Cases

For accessories, please refer to pages **H - M**.

GP680 - The Versatile Radio (MPT, with Keypad)

The GP680 can be easily programmed in the field to add or delete features, making it a useful tool for growing organisations.

Hardware features:

- 1 x 14 Display
- 6 menu Keys
- Keypad
- 3 Side Buttons
- Emergency button, top
- Rotary Switch continuous

Operator friendly controls and features include:

- MPT1327 Signalling
- Wideband and Programmable Channel Spacing
- Option Board Expandability
- X-Pand™ Voice Compression
- Low Level Expansion
- Four Programmable Personalities (MPT and/or Conventional)
- Missed Call Alerts
- Ease of Use - Menus
- User Information - Caller Identification
- Talkgroup Select etc.
- Dynamic Regrouping

All GP680 Packages include Portable Radio, Belt Clip, and User Guide

The following frequencies are potentially self-quieting and should be avoided:

VHF: 151.200, 168.000, 302.400, 319.200, 336.000 MHz

UHF: 403.200, 420.000, 436.800, 453.600, 470.400, 487.200, 504.000 and 520.800 MHz

Please select antenna and battery from options list below
